Self-help Apps

Mind shift

Helps you learn how to relax, develop more helpful ways of thinking, and identify active steps that will help you take charge of your Anxiety.

Headspace

Teaches you the basics of meditation and mindfulness.

For Me

Designed by ChildLine to support young people up to the age of 19. The app covers many issues including self-harm, anxiety, bullying and body image

Calmharm

provides tasks that help you resist or manage the urge to self-harm.

Distract helps to combat the urge by learning self-control:

Comfort helps to care rather than harm;

Express helps get feelings out in a different way;

Stop, Breathe & Think, the app for meditation & mindfulness, has a unique approach that allows you to check in with your emotions

My wellbeing Workbook

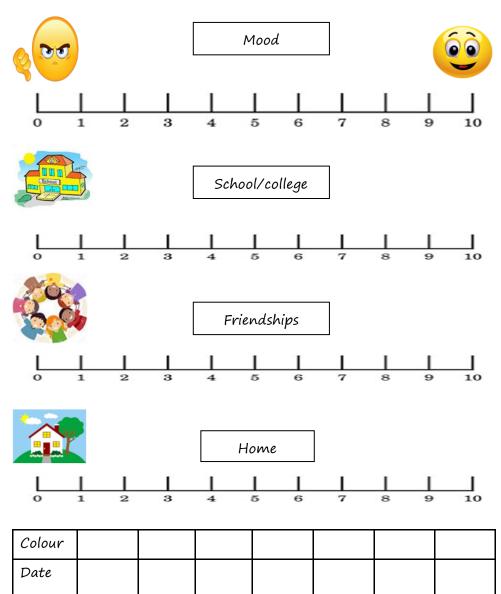

How am I feeling today?

Out of 10 (10 being very happy and 0 being not happy at all) rate your mood and how you are feeling about school/college, friendships and home.

Exercise

Day	Type of exercise	How did it make you feel?
Monday		
Tuesday		
Wednesday		
Thursday		
Friday		
Saturday		
Sunday		

Physical Exercise

When we do physical exercise our body releases happy chemicals called endorphins which make us feel good. Therefore it is a great idea to exercise for at least 30 minutes a day so we stay healthy and feel fantastic. Here are some ideas below to try.

Cycling

Basketball

Football

circuits

Jogging

Yoga

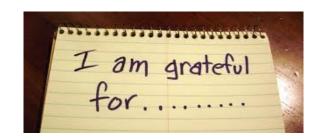

The gym Boxing

Tennis

Gratitude Diary

Write at least one thing that you are grateful for each day such as the sun was shining today.

Monday	Tuesday
Wednesday	Thursday
Friday	Saturday

Sunday	

Relaxation

Progressive Muscle Relaxation

Our bodies respond automatically to stressful situations and thoughts by becoming tense. The opposite relationship also works: a good way of relaxing the mind is to deliberately relax the body.

In a progressive muscle relaxation each muscle group is tensed in turn, and the tension is then released. This relaxes the muscles and allows you to notice the contrast between tension and relaxation.

Relaxation should be enjoyable so if any part of the exercise is too difficult skip it for the moment. If you have any injuries you may wish to leave out that part of the exercise.

Preparation

Lie down flat on your back, on a firm bed, a couch, or on the floor. Support your head and

neck with a pillow or cushion. Alternativelty sit in a comfortable chair with your head well-supported. Close your eyes if you are comfortable doing so.

Instructions

Focus your attention on different parts of your body in sequence. Go through the sequence three times:

- 1) Tense & release: Tense that body part, hold it for a few moments, then relax
- 2) Lightly tense & release: Tense that body part with just enough tension to notice, then relax
- 3) Release only: Just pay attention to each muscle group and decide to relax it Recommended sequence

1 Right hand & arm

(clench the fist & tighten the muscles in the arm)

- 2 Left hand & arm
- **3** Right leg

(tense the leg, lifting the knee slightly)

- **4** Left leg
- 5 Stomach & chest
- 6 Back muscles

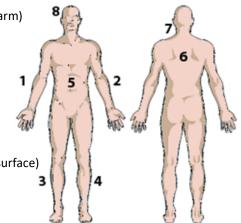

(pull the shoulders back slightly)

7 Neck & throat

(push the head back slightly into the pillow/surface)

8 Face

(scrunch up the muscles in your face)
